

Bearing support kit

Keeps your GLB crane bearings in position

Technical information CM-139

The MacGregor bearing support kit keeps bulk handling crane bearings in a locked position and prevents wire sheaves from tilting. They are designed for the lifting blocks of GLB cranes with safe working loads (SWL) of 32 and 36 tonnes.

Technical details

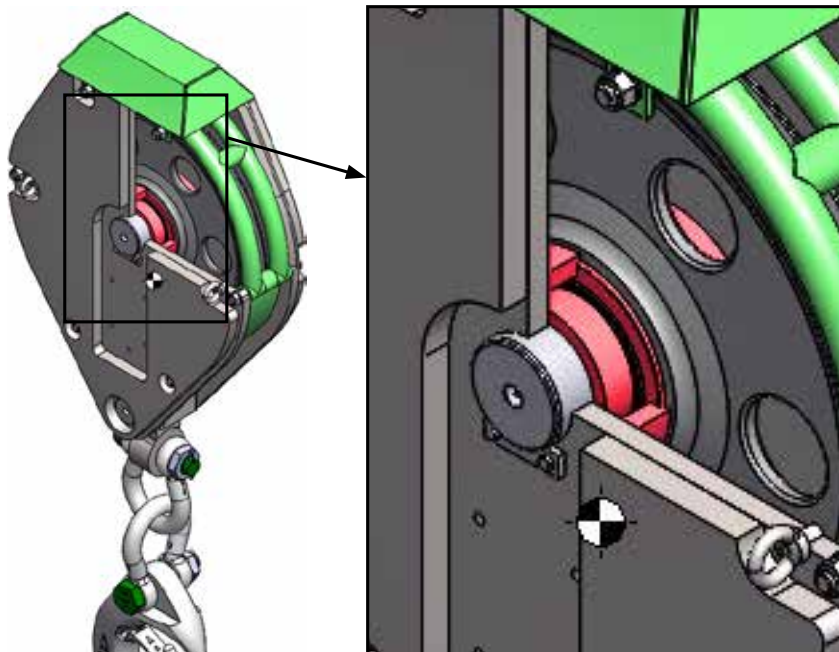

- Red: bearing support kit
- Blue: shaft
- Yellow: bearing
- Grey: lifting block body and wire sheave

Ordering information

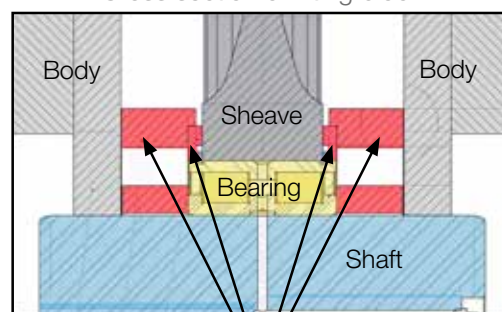

- Part No. 1275983 for GLB SWL 32 tonnes
- Part No. 1275982 for GLB SWL 36 tonnes

Installation requirements

- Personnel required: an engineer
- It is recommended that the wire-sheave bearing is replaced during the bearing support installation
