

BOP handling equipment services

MacGregor offers a range of BOP (blow-out preventer) handling equipment services, such as:

- Annual and five-year inspections
- Condition reporting
- Recommended overhaul and upgrades
- Resource and schedule planning
- Studies and detailed engineering
- Prefabrication and material supplies
- Overall supervision and workmanship
- Load tests and commissioning
- Final documentation

Annual and five-year inspections are based on guidelines and check lists, ensuring a reliable and complete survey.

MacGregor shapes the offshore and marine industries by offering world-leading engineering solutions and services with a strong portfolio of MacGregor, Hatlapa, Porsgrunn, Pusnes and Triplex brands. Shipbuilders, owners and operators are able to optimise the lifetime profitability, safety, reliability and environmental sustainability of their operations by working in close cooperation with MacGregor.

MacGregor solutions and services for handling marine cargoes, vessel operations, offshore loads, crude/LNG transfer and offshore mooring are all *designed to perform with the sea*.

MacGregor is part of Cargotec. Cargotec's class B shares are quoted on NASDAQ OMX Helsinki Ltd.
