

# MacGregor service parts for cranes and grabs

Global supplies of spare parts and services for non-MacGregor cranes and grab equipment

At your service

**MACGREGOR**

Designed to perform with the sea

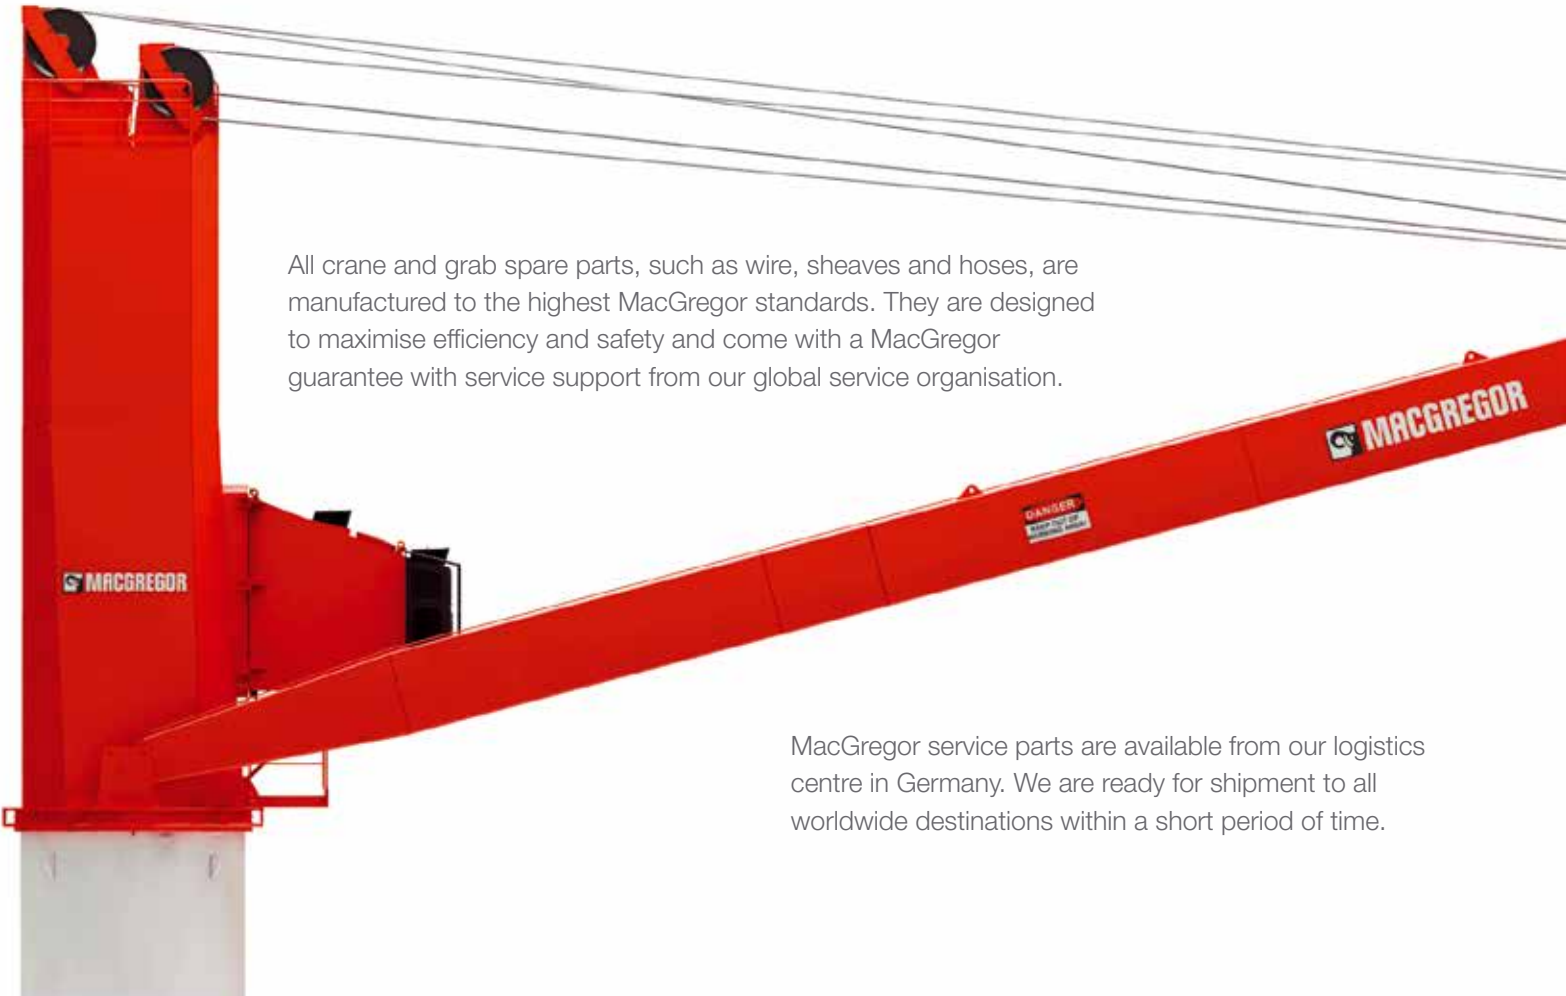

# A wide range of spare parts for cranes and grab equipment

In addition to being a leading original equipment manufacturer, MacGregor is able to provide spare parts, maintenance, inspections and repairs for all major makes and models of cranes and grabs.

Quality spare parts can substantially reduce your maintenance and repair costs and unplanned downtime. It pays to think about your long-term ownership costs. Are you choosing the right spares for the job?

All crane and grab spare parts, such as wire, sheaves and hoses, are manufactured to the highest MacGregor standards. They are designed to maximise efficiency and safety and come with a MacGregor guarantee with service support from our global service organisation.

MacGregor service parts are available from our logistics centre in Germany. We are ready for shipment to all worldwide destinations within a short period of time.

# Why to choose MacGregor service parts?

If you want secure solutions for every type of cargo, including the most delicate, do not compromise on your spare parts.

The performance expectations and requirements of spare parts have substantially increased in line with the need for safer and more effective equipment that offers lifetime profitability.

## **Longer service life**

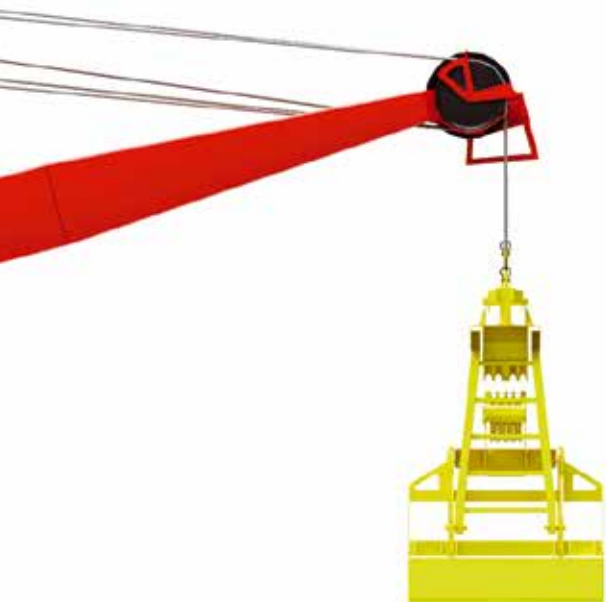

Original MacGregor spare parts ensure a longer service life for your equipment.

## **Constant development and testing**

Our experts continuously develop and test new solutions to provide the best possible protection for your cargo and to reduce the need for maintenance to a minimum, resulting in reduced costs and increased safety.

## **Functional and trustworthy in all conditions**

MacGregor spare parts are manufactured according to exact specifications that secure the optimum quality for a particular application.

### **MacGregor can supply services and consumable spare parts for the following makes of crane equipment:**

- LMG (TTS)
- OK (TTS)
- NMF (TTS)
- Tsuji
- BLM
- Towimor
- KGW
- KGW-Luzhou
- Fukushima
- Liebherr
- Mitsubishi
- IHI
- IHI-Wuhan

# Crane spare parts

MacGregor crane spare parts for non-MacGregor equipment are designed according to the MacGregor standards and based on our long experience with cranes. MacGregor offers tested and proven crane parts that mean trouble-free operations and safe cargo handling for all types of vessels.

## MacGregor is able to supply most of the spare parts including

- Hydraulic pumps and motors
- Hoses, fittings and control valves
- Slew bearings
- Wire ropes
- Sheaves
- Electrical components
- Control cards for following makers
  - Eberle cranes
  - BLM cranes
  - TTS-NMF cranes

## Multidiscipline workshop facilities

- Singapore
- Dubai, UAE
- Hamburg, Germany
- Shanghai, China
- Busan, Korea

# Wire

MacGregor has manufactured cranes for decades and we have gained extensive knowledge of wire technology. Therefore, we are also able to supply wire for non-MacGregor cranes.

All wire and fibre ropes are manufactured to the MacGregor standards and carry our standard guarantee and service support from our global service organisation.

In order for us to send you the correct specification and price as quickly as possible, please let us have as much information as possible, including the LA4 certificate if applicable.

# Grab equipment spare parts

**MacGregor is also able to supply spare parts for grabs from the following makers**

- SMAG
- Orts
- Tobu Jukogyo Ltd
- Güven

Typical grab spares consist of hydraulic pumps, valve blocks, hoses, filters, cylinder seals and electrical items.

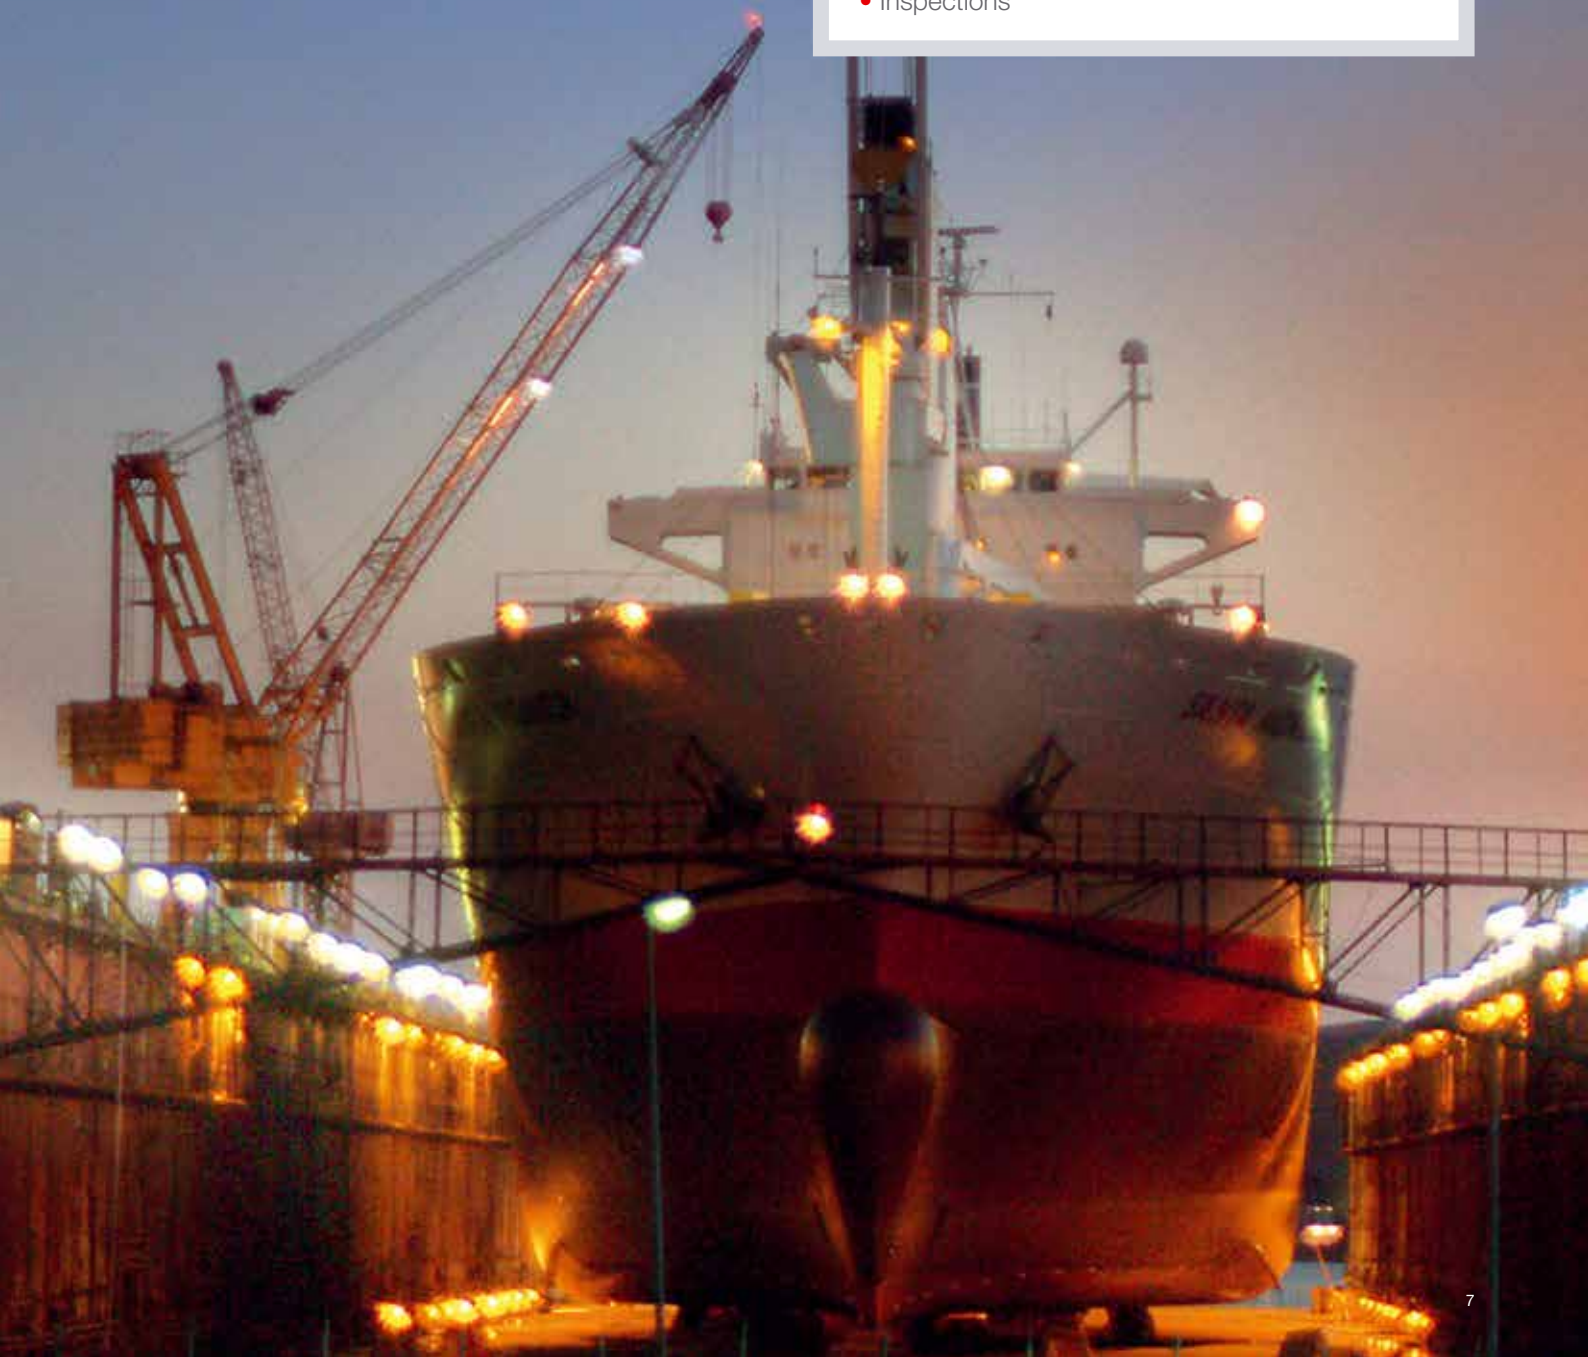

# Crane services

For cranes in service, we offer you lifetime support in the form of spare parts, training, inspections, maintenance, repairs, conversions, modernisations and drydocking services.

## Repairs / Retrofits / New construction

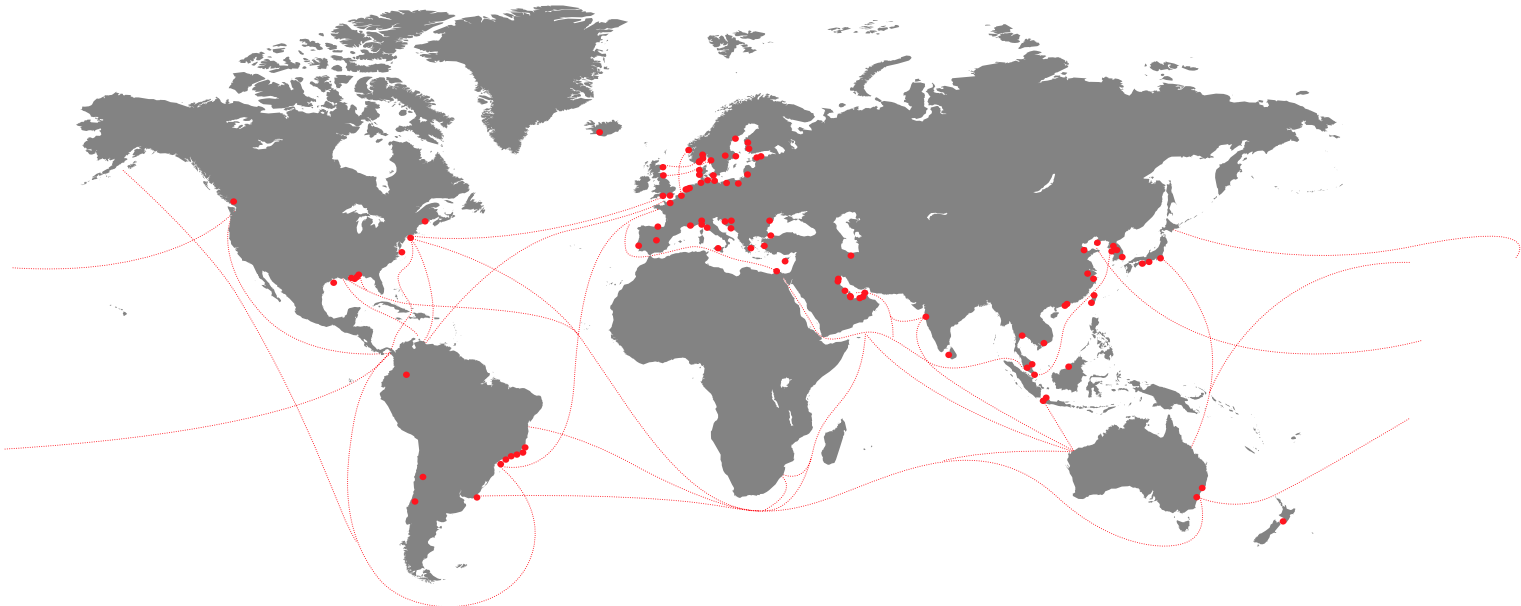

We are able to offer you the complete project handling from the initial request to production, supervision and classification society handling.

- Engineering and project management
