

## QUALITY, ENVIRONMENTAL, HEALTH AND SAFETY STATEMENT

MacGregor, part of Cargotec, offers world-leading engineering solutions and services to the offshore and marine industries. Our goal is to enable our customers to optimise lifetime profitability, safety, reliability and environmental sustainability of their operations by working in close cooperation with MacGregor.

In order to realise our goal, we have designed an Integrated Management System (IMS) covering all our areas of activities from design, manufacturing, supply and servicing of cargo and material handling systems and products for both marine and offshore vessels and industries. This drives our day-to-day operations.

### To achieve our goal, we are committed to:

- Promote the highest safety levels and environmental-friendliness in our products, services and solutions.
- Continuously work towards minimising the risk of injuries and ill health at work.
- Maintain pre-cautionary approach to environmental challenges in our operations.
- Comply with all applicable legal requirements and regulations.
- Identify customer requirements and provide products and services with focus on customer satisfaction.
- Continuously enhance our performance and improve the effectiveness of the IMS.

In MacGregor we take personal and collective responsibility for complying with this Statement in recognition of being held accountable for our own performance as well as the performance of those working under our supervision. By doing so, we will foster a winning culture that enables us to deliver on our promise *“Designed to perform with the sea”*.
